

Senior Clinical Trial Manager

Agomab is a young and dynamic biotech company developing medicine for patients with inflammatory and fibrotic diseases, including Crohn's disease. We are headquartered in Gent with offices in Antwerp and Barcelona; and laboratory facilities in Turin and Touro.

We are looking for an experienced **Senior Clinical Trial Manager** to expand our Clinical Operations Team, reporting to the Head of Clinical Operations. The role will provide operational expertise, be responsible for the management of outsourced clinical trials and ensure successful operational planning, execution, close out and quality as per applicable regulations.

Who are we?

We are a highly motivated team, valuing ownership, trust, humility and courage in everything we do. We focus on pioneering science and getting results within an environment of continuous self-improvement.

What will you do?

- Be the leader and primary point of contact for the assigned clinical studies
- Initiate and coordinate the vendor selection process and be the primary contact person for selected Clinical Operations vendors for allocated studies
- Ensure proper oversight of selected Clinical Operations vendors in accordance with agreed study plans, timelines & budget
- Ensure appropriate planning, execution and delivery of the assigned clinical studies within agreed budget, timelines and with high quality
- Coordinate and drive key opinion leader interactions and advisory boards for the assigned clinical studies
- Contribute to the development, design and operational efficiency of clinical study protocol synopses and full protocols
- Contribute to writing/review of site guidelines, laboratory manuals, biomarker plan and other relevant clinical study documents
- Coordinate the timely creation, review and approval of study documents and plans, such as the Clinical Study Oversight Plan
- Ensure proper and timely set-up, maintenance, review (i.e. Quality checks) and archiving of the Trial Master File
- Ensure inspection readiness at all time

Who are you?

- You have a master's degree in the scientific, medical or paramedical area

- You have ideally 8+ years of experience in clinical trial management at a biotech or pharmaceutical company. Experience in early development projects and fibrotic indications is considered a plus.
- You have in-depth knowledge of ICH-GCP, clinical trial designs and clinical operations
- You have a sound experience using Microsoft applications (Excel, Word, PowerPoint, Outlook)
- You are an excellent team player with strong oral and written communications skills
- Your project management skills allow you to identify and adapt to shifting priorities and competing demands while having the ability to maintain composure in difficult circumstances
- You speak and write English fluently. Additional languages are a plus.
- You are most of all a motivated and self-driven person, independently managing your time and projects

What we offer

- The opportunity to develop **pioneering science in a young biotech company**
- Challenging and innovative work environment as part of a driven team
- **Flexibility and responsibility** based in Antwerp with remote working options that can be tailored for you
- Competitive salary and benefits
- An agile and fast paced environment

Interested in having a high-impact contribution in a growing company? **Send your application to HR@agomab.com** to the attention of Paul van der Horst, Chief Business Officer and join the team! Please be aware, Agomab is not working with any recruitment agencies so please reach out directly.
